

Document SCV-167035 Revision 1 Status RELEASED Issued 22 Jun 2026

Certificate of Analysis

This certificate confirms the independent laboratory analysis of the goodaminos.de product batch identified below.

1 · PRODUCT IDENTIFICATION

Product	GHK-Cu Cream	Supplier	goodaminos.de
Designation	GHK-Cu	Retail presentation	50 ml
Tested sample	50 mg	Recommended storage	-20 °C, dark
Laboratory	Janoshik Analytical	Lab report no.	#167035

2 · SCOPE & METHOD

Independent third-party analysis performed by Janoshik Analytical. Identity and purity determined by reversed-phase HPLC with ESI mass spectrometry; bacterial endotoxin, where listed, by the LAL method. Results apply to the tested batch; purity is representative of the batch as supplied in all retail sizes.

3 · TEST RESULTS

PARAMETER	SPECIFICATION	RESULT	METHOD
Identity	Conforms to reference	GHK-Cu	RP-HPLC / ESI-MS
Purity	≥ 98.0 %	99.747 %	RP-HPLC
Measured content	Per tested sample	52.47 mg (GHK 43.87 mg · Cu 8.60 mg)	RP-HPLC
Bacterial endotoxin	Reported	<1 EU/vial	LAL (kinetic)
Purity profile			

Note: Analysis of the GHK-Cu active ingredient used in the cream.

4 · CONCLUSION

VERIFIED · OVERALL RESULT: PASS

Identity and purity conform to specification.

5 · AUTHENTICITY
